

PRESS RELEASE

Africa FootGoal pays tribute to the late Pape DIOUF

Dakar, February 05, 2021 - For the first edition of the Africa Footgoal conference (www.africafootgoal.com) scheduled for February 10 to 13, 2021, the organizers have chosen to pay tribute to the late Pape Diouf who will thus be celebrated during the event. The choice made for this emblematic figure of world football, and African football in particular, is explained by the fact that Africa Footgoal aims, among other things, to create emulators in all the compartments of the football performance chain, in particular in management. T

He late Pape DIOUF has always embodied this leadership and contributed to the blossoming of the careers of several actors in African football (players, managers, coaches and consultants). A position recognized by everyone in football, and confirmed by his friend Mr. Mamadou KOUME - former president of the National Association of Sports Press of Senegal and former lecturer at the University Cheikh Anta Diop: "Pape is a Marseillais to such an extent that they gave him all the responsibilities that a native Marseillais would have had. Pape is an African. He is welcomed in all African capitals as if he were at home. The journalist was talented, a fine pen, which was recognized by his peers and the public. "

The initiator of the event, Diamil Faye declares "We sincerely thank the family of Pape Diouf who accepted this deserved tribute that we want to extend to a pioneer of African football, a man of value that we have the obligation, by duty of memory to give as an example to present and future generations. He has been and will remain a source of motivation and inspiration for us. "

Africa FootGoal thus intends to revisit the work of the late Pape DIOUF during these four days of exchanges between football actors from around the world, through video and written testimonials that will be shared at the start of each of the eight (8) panels of the conference.

To follow the conference on digital platforms, simply register free on the website www.africafootgoal.com until 07 February at 19:00 GMT.
